EDUCATION

Bachelor Of Engineering
Jadavpur University-Kolkata

08/2019 - Present   *8.7 CGPA*

Higher Secondary School
India International School

05/2016 - 05/2018   *86.6%*

Secondary School
India International School

04/2014 - 03/2016   *10 CGPA*

PERSONAL PROJECTS

1) Blockchain
- A simple chain of endless blocks, each having a unique address to store immutable data related to a simple cryptocurrency.
- Technologies Used - JavaScript and NodeJS.

2) File Sharing App
- An excellent file-sharing app similar to Google Drive that allows you to share your files with whosoever you want. You can upload any file from your computer and the app generates a link that can be used to download the file and that link can be sent to another person using his email address.It is a full-stack development project.
- Technologies Used - HTML, CSS , JavaScript , NodeJS , MongoDB and Express.

3)To Do List
- An amazing tool to plan my day and track the completed and not completed activities as I go through my daily routine.
- Technology Used - JavaScript, HTML and CSS.
